

Michael Berrang, Director Integrated Ship Systems, Northrop Grumman

Michael Berrang currently serves as the Strategic Business Unit Director of the Integrated Ship Systems business with Northrop Grumman Corporation. In this role, Mr. Berrang is responsible for all aspects of the business unit including Strategy, Growth, Customer Relationships and Program Execution.

Mr. Berrang joined Sperry Marine (now part of Northrop Grumman) in 1989 as a Senior Software Engineer working in areas including Coastal Radar Surveillance and Integrated Bridge Systems. He was a lead architect in the company's development of the original platforms for paperless navigation for both commercial shipping and US Navy platforms. In 1994, Berrang left Sperry Marine and worked in the Telecommunications field until 2002. From 2002 until 2004, Berrang headed a small private firm specializing in Integrated Technology Systems for the Senior Living Industry before returning to Northrop Grumman Corporation. Prior to taking his current position, Berrang was Chief Engineer and Technical Director for Northrop Grumman, Sperry Marine and responsible for managing that Business Units' worldwide IR&D and technology roadmap development.

Berrang currently serves as an executive sponsor of the NGMS VOICE (**V**ictory **O**ver Impairment & **C**hallenge **E**nterprise) employee resource group which focuses on fostering an inclusive environment for persons with disabilities.

Berrang has a Bachelor of Science in Computer Science from Radford University and a Distinguished Certificate in General Management from the University Of Virginia Darden School Of Business. He holds two US Patents in the area of Computer Telephony and has twice received Northrop Grumman Presidential Leadership Award for Innovation and Technology as well as for Customer Satisfaction.
